AYUSH MAHAJAN

Software Engineer | Frontend / Full Stack Developer

Pune, Maharashtra, India | +91 9039898453 | mahajanayush321@gmail.com

linkedin.com/in/am14326 | github.com/mahajanayush28

PROFESSIONAL SUMMARY

Software Engineer with 4+ years of experience designing, developing, and deploying scalable web and mobile applications. Proficient in React.js, Next.js, React Native, JavaScript, Redux, Node.js, MongoDB, and Playwright. Experienced in building reusable component libraries, dynamic form builders, RBAC-based systems, REST API integrations, performance optimization, automated testing, and end-to-end software delivery. Strong problem-solving abilities with a focus on scalable architecture, clean code, and high-quality user experiences.

TECHNICAL SKILLS

Frontend: React.js, Next.js, React Native, JavaScript (ES6+), HTML5, CSS3, SASS, Bootstrap, Material UI

Backend: Node.js, Express.js

Databases: MongoDB, MySQL, Oracle DB

Testing: Playwright

Tools & Platforms: Git, GitHub, Postman, VS Code, Figma

PROFESSIONAL EXPERIENCE

MERON | Software Engineer

Apr 2025 – Present | Remote

- Developed scalable front-end applications using React.js, Redux, and modular architecture principles.
- Built reusable UI components and configurable dynamic form builders, improving development efficiency and consistency across projects.
- Converted Figma designs into responsive, pixel-perfect user interfaces ensuring accessibility and cross-browser compatibility.
- Implemented authentication, authorization, and role-based access control (RBAC) systems.
- Integrated backend APIs and implemented Playwright automation testing for end-to-end coverage.
- Developed React Native mobile applications and supported deployment activities in Agile environments.

Vector Flow | Software Engineer

Jan 2023 – Mar 2025 | Remote

- Developed high-performance web applications using React.js and Redux with reusable component libraries.
- Built drag-and-drop form builder solutions and collaborated with cross-functional teams on scalable software products.
- Integrated REST APIs and delivered end-to-end features from design through deployment.

- Optimized application performance and improved user experience across multiple enterprise applications.
- Implemented secure authentication and authorization mechanisms across multiple platforms.

Techno Start | Software Engineer

Sep 2020 – Oct 2021 | Pune, India

- Designed and implemented new application features based on business requirements and user needs.
- Developed responsive user interfaces using HTML, CSS, Bootstrap, and JavaScript.
- Collaborated with development and QA teams on testing, debugging, and deployment activities.
- Contributed to application maintenance and continuous improvement initiatives.

EDUCATION

PG-DAC – Post Graduate Diploma in Advanced Computing

CDAC Bangalore | 2021 – 2022

Bachelor of Engineering (B.E.)

RGPV University, Bhopal | 2014 – 2019

CERTIFICATIONS

- PG-DAC (Advanced Computing) – CDAC

ACADEMIC PROJECT

Hospital Management System – PG-DAC Final Project

Developed a Hospital Management System to streamline healthcare administration, enabling efficient handling of patient records, appointments, billing, inventory, and reporting.

Technologies: MongoDB, Express.js, React.js, Node.js (MERN Stack), HTML, CSS, JavaScript

- Patient Registration, Record Management, and Appointment Scheduling
- Doctor and Staff Management with Role-Based Access Control
- Billing, Payment Tracking, and Inventory/Pharmacy Management
- Designed database structure, CRUD operations, and administrative reporting modules

KEY STRENGTHS

- Experience working with distributed and remote development teams across Agile environments.
- Expertise in reusable component development and scalable application architecture.
- Strong experience in frontend development, backend integration, testing, deployment, and production support.
- Excellent debugging, analytical, and problem-solving skills with focus on clean, maintainable code.
- Proven ability to deliver end-to-end software solutions in fast-paced Agile environments.
